

Flow Rate Indicating Totalizer cum Batcher

MS FL 27

FEATURE

- Microcontroller based design
- Simple & cost effective construction
- Flow ranges - Programmable
- Flow Units – Programmable
- Batching Controller
- 4 to 20 mA DC Isolated Retransmission output

Flow indicator
Totalizer Batch controller

SPECIFICATION

Input	: 4 to 20 mA DC
Range	: Programmable
Unit	: Programmable
Set Points	: 02 Nos.
Output	: 02 Nos. Potential Free Relay
Retransmission Output	: 4~20 mA DC Isolated
Mounting	: Panel Mounted
Dimensions	: 96 x96 x 100 mm
Supply	: 230 VAC
