

pH Indicating Controller cum Transmitter

MS pH 27 W

*pH indicator controller
Transmitter weatherproof*

FEATURE

- Advanced Embedded Microcontroller based design
- Field Type Weather proof version
- Easy front key calibration
- Multi parameter display Simultaneously shows – pH, Temp, mV & Relay Status on Single screen
- Two Programmable isolated relay outputs
- Isolated 4 to 20 mA retransmission output

SPECIFICATION

| | |
|--|--|
| Range | : 0 -14 pH |
| Accuracy | : ± 0.01 pH |
| Display | : LCD Multivariable Display Backlit |
| Calibration | : Three Point Keypad |
| Output | : Two isolated relays |
| Retransmission Output | : Isolated 4 - 20 mA fro PLC/ SCADA / DCS / Remote Indicator |
| Temperature Compensation | : Auto / Man Selectable (PT-100) |
| Repeatability | : ± 1 LSB |
| Power Supply | : 220-240 VAC, 50/60 Hz |
| Enclosure | : ABS |
| Mounting | : IP 65 Field Mounted |
| Supplied with pH buffer solution of 4.0 & 7.0 1 no each | |

Note : Due Continues improvement in Product the Specifications may vary
